## Skills

Frontend: HTML, CSS, JS, TypeScript, ReactJS, Redux

Backend: Python, NodeJS, Express, SQL, MongoDB

Misc: Agile, AWS, Git, Firebase

Softwares: Figma, Zeplin, VS Code, GitHub

## Work Experience

### Web Developer

Cellcard | Bitrise, Rest API, React, React Native

Jun 2022 - Oct 2022

- Utilized Bitise (CI/CD tool) to build apps for quality assurance testing
- Maintained the application by fixing minor bugs as reported by quality assurance
- Developed a dynamic app bar component with background image fetched from CMS using Restful API for celebrating different events such as anniversary or festivals

### UX Designer

Cellcard | Figma, Zeplin

Nov 2021 - May 2022

- Conducted research which influenced the decision to transition to new design tool which led to cost cut by approximately 80% while ensuring existing use cases are maintained
- Created design systems for two projects which resulted in reusability of components, better consistency and smoother handover to new designer
- Restructured design files to clearly indicate the design progress of each feature for business analyst, developers and product owners

## Education

Master of Information Technology

Software Development Major | Dec 2021

University of Technology Sydney, Australia

International Banking & Finance

Bachelor of Arts | Jun 2018

Sheffield Hallam University, England

EASB Overseas Merit Scholarship

## Honours & Awards

Engineering and IT Postgraduate  
Academic Excellence Scholarship

Awarded by: UTS | 2020

EASB Overseas Merit Scholarship

Awarded by: EASB | 2015

## Personal Project

### Marketsquare
